

VISIA® Complexion Analysis

Your Renaissance MediSpa experience begins with a VISIA® Complexion Analysis, an advanced technology that can provide a comprehensive assessment of your skin. It uses ultraviolet photography to quantify skin condition by measuring damage in five categories: age spots, porosity, wrinkles, UV damage and evenness of tone.

VISIA allows us to design anti-aging therapies based on skin feature analysis, and track rejuvenation and resurfacing outcomes. The VISIA complexion analysis report compares the grading of skin relative to the candidate's peer group (same sex, age and skin type). Your photos from the Visia consult can be emailed to you via the Visia app.

A Visia Analysis costs \$50, which can be applied toward a same day Medispa purchase.

It's time to rejuvenate ...

The Renaissance MediSpa blends the best of two worlds: a relaxing spa experience with the procedures and expertise found at a doctor's office. The doctors of Fox Valley Plastic Surgery oversee the MediSpa and are in charge of procedures that fall under the medical realm. Our expert licensed medical aestheticians perform the less aggressive spa therapies. We invite you to experience your beauty rebirth from the Wisconsin skin care specialists at the Renaissance MediSpa.

Contact our offices today to begin your personal Renaissance!

Cancellation Policy

Although walk-ins are welcome, an appointment is recommended. A 24 hour notice of cancellation is required to avoid a \$50 cancellation fee.

Gift certificates can be purchased in the dollar amount of your choice. Services and prices are subject to change.

ThermiSmooth® Face & Body	Non-invasive no downtime RF treatment \$12.75 per min. to improve skin laxity & cellulite, and to reduce fat through increased collagen production over a period of time. Can be done on most body parts and the face. 4-6 treatments necessary. 30-40 minutes per area.
ThermiTight® Skin Tightening	Using targeted radio frequencies, re-firms sagging skin areas like the face, neck, stomach, and thighs. Ideal for patients who don't want surgery, but want more tightening results than non-invasive procedures can deliver. Call for quote for other areas of the body.
Coolsculpting® Fat Reduction	The only non-invasive procedure that uses advanced cooling technology to gently and effectively target and eliminate fat in specific areas of the body. Involves no incisions and no anesthesia. Reduces the fat layer without harming the skin. Buy more, save more. Multiple applications required. A consultation is required for a quote.
ThermiVa™ Vaginal Rejuvenation	Non-invasive, ThermiVa uses radio frequency energy to strengthen and tighten externally and internally. Labia appearance, mild stress incontinence, clitoral sensitivity, and dryness are improved. Requires 3 applications and 1 treatment annually for maintenance.

Advanced Photofacial	Combination of Photofacial and Skin Tyte™ to reduce redness, eliminate brown spots, improve sun damage, and tighten skin. Requires a series of 3-6 treatments. No downtime.
Sciton® ProFractional™	Aggressive resurfacing to effectively treat a wide variety of conditions, while leaving surrounding skin intact to promote rapid recovery. Improves fine lines and wrinkles. Treats aging and sun damaged skin, freckles, sunspots and acne scars. Stimulates collagen production. 5-10 days downtime. Treatments are customized for each patient.
Laser Hair Removal	Requires multiple treatments to reduce the total amount of body hair. Sample pricing per treatment session: Arms: \$100 - \$250 Back: \$300 - \$700 Bikini: \$150 - \$200 Chin: \$100 Face: \$175 Legs: \$300 - \$600 Underarms: \$100
Laser Tattoo Removal	Laser technology disrupts the ink, allowing your body to absorb it and break it down naturally. All tattoos need multiple treatments for removal.

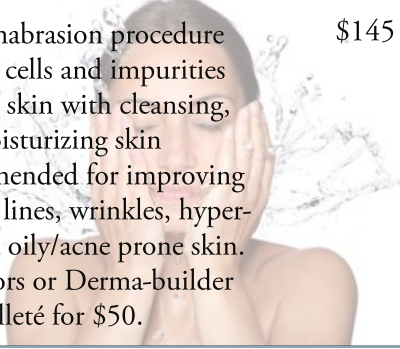

Renaissance Peel	Removes layers of aged and sun damaged skin. Equivalent to six dermabrasions. Immediate results with minimal to moderate downtime.
NanoLaserPeel™	A "weekend" skin peel with slight redness, and little or no downtime. Ideal for sun damaged skin and early skin aging. Results improve with treatments every 8-10 weeks.
Mother of Pearl Peel	Combines a BBL treatment with a micro laser peel. Improves sun damage and aged skin. Tightens skin. Improves fine lines and wrinkles. Several days downtime. May require more than one treatment.
Ruby BBL™ Photofacial	Minimizes redness & treats visible vessels, broken capillaries, spider veins, vascular lesions and discoloration. May need multiple treatments. No downtime.
Pearl BBL™ Photofacial	Treats age spots, brown spots, sun damage and freckles. Restores skin to its natural beauty. May need multiple treatments.
BBL™ Photofacial	Combination of Ruby and Pearl BBL™ treatments to treat red and brown spots. May need multiple treatments. No downtime.

Skin Care

HydraFacial™

Unique hydradermabrasion procedure removes dead skin cells and impurities while bathing new skin with cleansing, hydrating, and moisturizing skin solutions. Recommended for improving appearance of fine lines, wrinkles, hyperpigmentation, and oily/acne prone skin. Add Growth Factors or Derma-builder for \$50. Add décolleté for \$50.

MicroDermabrasion w/Lactic Peel

Gently abrades and exfoliates skin surface with fine crystals and removes impurities. May decrease the appearance of superficial hyperpigmentation and photo-damage, and diminish fine lines, wrinkles, and shallow acne scars.

MicroDermabrasion w/Dermaplaning

Gently scrapes off top layer of dead skin cells to reveal smooth complexion, and sands the skin to treat light scarring, discoloration and sun damage.

MicroPeel with Dermaplaning

A lactic acid peel and dermaplaning remove the outermost skin layer to leave skin smooth, supple and vibrant.

Add Ons and Extras

Customized Masque \$25
Extractions per 15 min. \$30
European Facial Massage \$50
Hands \$50
Post Peel Dermaplaning per 15 min \$35
Post Treatment HydraFacial™ \$85

Injectables & Fillers

Aquagold® MicroChanneling

Aquagold is a revolutionary microneedle device that contains 24 karat needles, each smaller than a hair follicle. This device delivers products such as dermal fillers, muscle relaxants, retinol, and antioxidants directly into the skin. Deeper penetration of these active ingredients results in a healthier and vibrant appearance of the skin. Used to treat fine lines and wrinkles, acne scarring, decreased skin elasticity, and loss of facial volume.

Botox® and Dysport® Injectables

Injectable relaxers minimize lines and wrinkles. Improves the look of moderate to severe frown lines between the eyebrows. Save more with our Dysport punch card.

Restylane® Fillers

Dermal fillers are used to smooth wrinkles or folds along the side of your nose or mouth. \$200 Discount on second syringe of same filler.

Sculptra® Filler

Unique dermal filler used to correct shallow to deep facial wrinkles and folds. Results appear gradually over the treatment regime (typically three injections over the course of 3-4 month) and can last for more than 2 years.

Glytone Eye and Lip Peel After 4 Peels

Peels & Treatments

ZO Ossential® Stimulator Peel

30% salicylic, lactic and citric acid lunchtime peel for all skin types. Brightens and exfoliates. Promotes cellular turnover with no downtime.

ZO Ossential® Skin Brightening Treatment

Creates more even skin tone and texture, and minimizes pore size. Includes a mask with green tea extract, mulberry root extract and arbutin.

ZO Ossential® Ultra Hydration Treatment

Hydrates and rejuvenates. Enhances skin brightness and clarity. Addresses skin texture, fine lines, and wrinkles. Includes an aloe mask to calm and hydrate.

ZO Ossential® Acne & Oil Control Treatment

Minimizes oil production, large pores, and inflammation. Calms acne breakout. Includes a micro-scrub, extractions, and a sulfur mask to purify the skin.

Glytone Glycolic Acid 30%

For aging skin and premature signs of aging. Reduces visible signs of aging: fine lines, wrinkles, photo-damage. Improves skin texture and tone.

Glytone Salicylic Acid 30%

For blemish-acne prone skin to reduce the appearance of oily, acne-prone skin and blemishes.

Glytone Mandelic Acid 40%

Superficial chemical exfoliation to improve the reduction of occasional redness. Improves skin color and texture.

Glytone Pyruvic Acid 50%

For premature signs of aging and acne-prone skin. Decreases appearance of fine lines, wrinkles, acne blemishes and pore size. Evens skin tone and texture.

Glytone Jessner Peel

For premature signs of aging, aging, and superficial hyperpigmented skin. Reduces moderate hyperpigmentation. Improves skin tone and skin radiance.

Glytone TCA-LP Peel

Decreases appearance of moderate hyperpigmented skin, pigmentary irregularities, leathery texture, fine lines, small scars and coarse wrinkles.

Glytone Back Peel

Reduces oily, acne-prone skin, lesions and sebum. Improves complexion brightness and skin clarity.

Glytone Eye and Lip Peel

For mild-moderate photo-aging, fine lines and wrinkles on eyes and lips. Increases skin firmness. Decreases dark spots and dark circles. Add dermaplaning for \$35.

Glytone Neck Peel

For photo-aging, fine lines and wrinkles on neck. Improves mild dark spots, skin firmness and elasticity. Evens skin tone and texture.

Glytone Hand Peel - Add On to another peel

For mild-moderate photo-aging of hands. Reduces appearance of dark spots, fine lines, small scars and coarse wrinkles. Improves skin texture and tone.

* Get 50% off 4th Glytone peel. Mix and match.

Skin Care Products

ZO® products reflect Dr. Obagi's view that skin health is a continuous process. We carry both ZO® Skin Health products, a comprehensive array for daily and preventative skincare, and ZO® Medical products, for a range of skin disorders and chronic conditions. ZO® makes it easy for you to identify a program that matches your particular skin condition, whether you seek to combat the signs of aging, or simply restore and maintain youthful, healthy-looking skin.

Avene, recommended by dermatologists worldwide, is dedicated to sensitive skin with hypoallergenic and non-comedogenic skin care products. We use Avène products to restore the skin after advanced laser procedures, and recommend it to our patients.

Colorescience® fuses the beauty of traditional makeup with the benefits and efficacy of skincare. The use of high tech, proven ingredients such as peptides, liquid crystals, pearl powder, hyaluronic and salicylic acid, enhances products with instant and long lasting results. The high performance cosmetics were created to help achieve a clear, even complexion while protecting the skin from the damaging effects of the sun and environment.

HydraFacial MD® products provide you with detoxification, rejuvenation, and protection while targeting your specific skin concerns. The Antiox+ Daily formula, a combination of antioxidants, peptides, hyaluronic acid, and the TonePerfect Complex deliver beautifully healthy skin.

Skinbetter Science® applies InterFuse™ patented technology, a revolutionary no-needle delivery system, to transport skin improving ingredients faster and deeper to where they are most needed. The formulas not only deliver measurable benefits, but they also treat you to a sumptuous and pampering sensorial experience.

Teoxane™ Cosmeceuticals uses crossed-linked hyaluronic acid, or RHA™ to recreate tissue and fill wrinkles from the inside out. A top seller has been Teoxane Eyelash Serum, which is priced very competitively, lasts for 4-6 months, and works wonders in lengthening lashes. It's a staff favorite.

Vein Treatments

Sclerotherapy

A sclerosing solution is injected into each spider vein, causing it to immediately shrink and then dissolve over a period of weeks as the body naturally absorbs the treated vein. Painless with no downtime, and suitable for legs, feet, and hands. Includes one free touch up. An add-on ultrasound option is available for underlying vein issues.

Veinwave™

Veinwave™ uses thermocoagulation to immediately eliminate fine thread veins on the face and legs. This is a relatively painless walk-in procedure with no risk of bruising, scarring or pigmentation, only the risk of minor reddening for a few days.
